COLORADO ATTACK

JUNE - 2021

Colorado Attack

In the Name of Allah, the Most Beneficent, the Most Merciful

The battle of the Islamic nation against the Americans and their crusader-zionist allies is still continuing in which the Muslim nation is fighting against the American and the Western enemy altogether just like how they are fighting the Muslim nation altogether. In this battle it becomes the obligation of all who have the capability and strength to repel the invading enemy so that they abstain from oppressing the Muslims and stop supporting the Jews who are usurping our lands and oppressing our brothers in Palestine and they stop interfering in the Islamic lands. This is a legitimate right of the Islamic nation in which the easterner, the westerner, the Arab, non-Arab, the white and the black, the red, the brown, all participate in this great obligation, and the Shaami, the Egyptian, the Moroccan, the Somali, the Iraqi, the Sudanese, the people of the Arabian peninsula, the Indian, the Sindhi, the Pakistani, the Afghani, the Turk, the Tajik, the Uzbek, the Kazakh, the Chadian, the Cameroonain, the Indonesian, the Malaysian, the Chinese, the European, the American, the Latin, the East and Central African, the Russian and the Chechen, who are all one nation - yes they are one nation - they are one nation united by one religion, one God and they share the same rights and duties, and they are not separated by borders and lands and they are not torn apart by citizenships - they all pour their sacrifices and their blood in its path, as they are one nation that crosses continents.

In this context, we congratulate the Islamic nation and congratulate it for the recent operation inside the unjust and oppressive America, and we applaud that attack launched by our hero brother Ahmed Al-Issa, who is from the Levant, the Blessed Land. He caused damage to the enemy and has pleased every Muslim who is passionate about his religion and is every day witnessing the Americans and the crusader west interfering in the affairs of the Muslim nation in various ways and violating their sanctities. We call on the Muslims in general in America and elsewhere to follow in the footsteps of the brother in undermining the American enemy wherever he is; inside his country - which is the best, or whether he is outside. So let every person take his share of the battle and reserve his place in the battle row to obtain the goodness of both this world and the hereafter.

Our Mujahideen have the right to avenge the thousands of Muslims, including men, women and children, who were killed by America in its crimes in the Levant and Iraq, and by its leadership of the International Coalition there, and the bill stating their accountability is still long. And this is a post of our Mujahid on social media showing his sympathy with the sufferings of the Muslims in the Levant.

In an interview with Fox News, US Representative Madison Cawthorn said that Ahmed Al-Issa had acted in retaliation for the US air strikes in Syria, and the deputy affirmed that the blame falls on US President Biden for his policy in Syria.

In this issue, we will cover that operation and its impact on the American enemy, and we incite and guide those involved in lone Jihad to carry out and obtain the best results, by the help of Allah.

Operation of the Shaami Mujahid Ahmed Al-Issa

1. Introducing the Mujahid

Ahmed Al-Aliwi Al-Issa who was from the town of Al-Raqqa in Syria immigrated with his parents to America in 2002 AD, and he was at that time three years old, and he then resided there for the rest of his life and obtained American citizenship, and this strengthened the means by which he obtained weapons later for the operation and the ease of his work in general. The Mujahid resides in the state of Colorado in which the operation was carried out. He loved martial arts and kickboxing, and he won several prizes in it. In 2017, one of the American students mocked him and insulted him for his name because he was a Muslim. The brother Ahmed did not wait and quickly attacked him, threw him on the ground, punched him several times, and left him covered in blood.

Brother Ahmed has several Islamic posts and follows the Muslim nation's affairs on social networking sites, including these posts:

Ahmad Al Issa

May 7 , 2019 · 🌐

So Mary wears a hijap and jesus dosent eat park and prays on his knees and hands. There both Muslims it's obvious

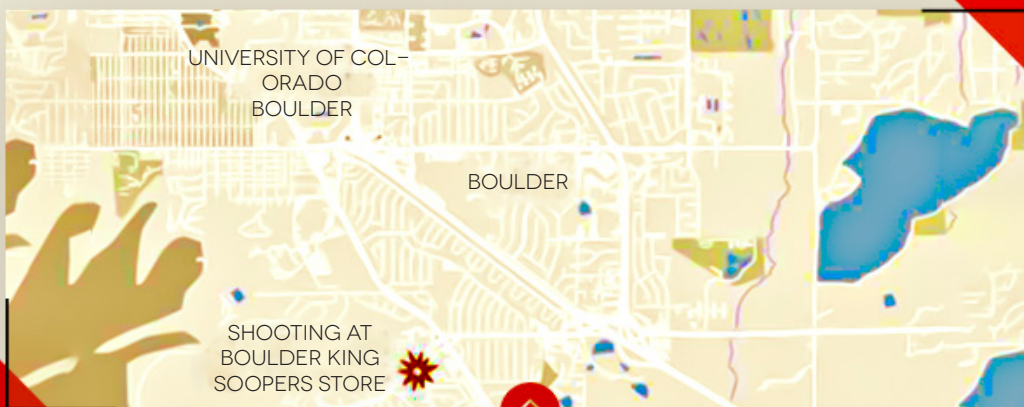

Among his posts are also: "Muslims may not be perfect, but Islam is"

Among his posts was that in which he was criticizing the authorities for not doing anything to prevent the spread of the gatherings of the homosexuals.

2. The operation:

The Mujahid Ahmad Al-Issa is a resident of the US state of **Colorado** in the city of Arvada, Colorado, which is away from the place of execution in the city of Boulder in the same state by around 25-30 miles, or about half an hour.

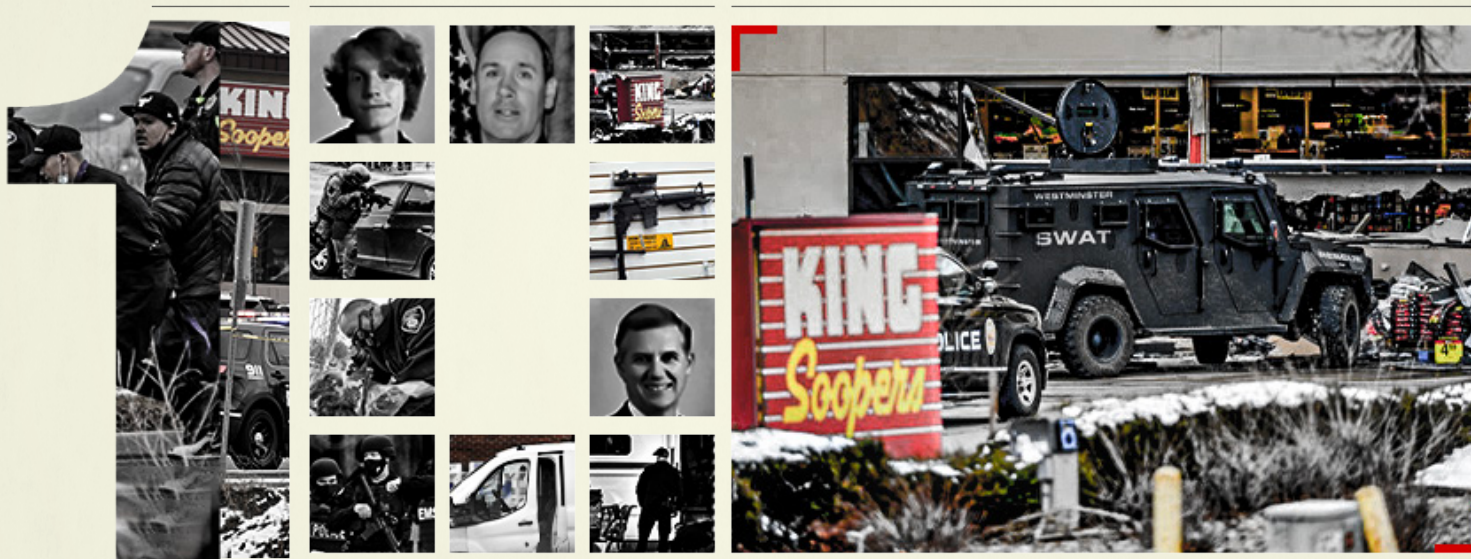

The Mujahid Ahmad bought a weapon less than a week before executing the operation, that is, on **March 16**, when he bought a nice machine gun suitable for the operation and it was of the type **AR-15**, which is the civilian version of the **M-16** military machine gun, and he bought this rifle in a legal manner without drawing attention.

On Monday, **March 22nd**, the Mujahid prepared for the operation, took his weapon and his materials, and proceeded to his chosen goal, which is a store or a large supermarket named **King Soopers** in which people gather to buy what they need and to get vaccinated against the Corona virus,, in the city of Boulder. At 3 pm in the afternoon the Mujahid attacked the Americans outside the store and killed three of them, and he then entered the store and killed others until he completed killing nine of them. Then a police officer came and our Mujahid killed him too. After that the police personnel came and he clashed with them, and the operation continued for thirty minutes until he got injured. The Denver Post newspaper mentioned eye witnesses stating that our Mujahid was laughing while carrying out the attack, and the police were saying to each other during the clash with the Mujahid that “The guy is laughing at us.”

3. Results and implications of the operation:

First: Ten white Americans were killed, including a police officer.

Second: The supermarket in which the operation was carried out got shut down temporarily.

Third: This operation increased the division between the American people, between the right and the left, and between the Republicans and their supporters, and the Democrats and their supporters, in two ways:

One: Due to targeting white Americans or Anglo-Saxons, the right took it as an argument against the left. It was preceded by an operation that targeted Americans of Asian origin, and it was taken by the left as an argument against the right. .

Two: The right supports spreading weapons throughout America without restricting it, and the left is opposed to this and calls for restrictions. The operation was carried out by using a machine gun that was frequently used in shooting operations, and this operation raised the matter of the spread of weapons in America. So immediately after the operation Biden in his speech focused on this matter saying that he does not like to wait even for a minute to take steps towards issuing restrictions and regulating the possession of weapons. .

Fourth: This operation brought grief to the American people and to their leaders. Biden said, commenting on the Colorado incident, “Ten lives have been lost, and more families have been shattered by gun violence in the state of Colorado... And the feeling — I just can’t imagine how the families are feeling — the victims whose futures were stolen from them, from their families, from their loved ones who now have to struggle to go on and try to make sense of what’s happened”. We say to Biden that the feelings of the families of the victims and their loved ones in America is the same as the feelings of the families of the victims of the American interventions, including the bombings and the military landings in Yemen, the Levant, Iraq, Palestine, Pakistan, Afghanistan, Libya, Somalia, and others, and so you can imagine how they are.

And he also said “My heart goes out. Our hearts go out for the survivors. The ones who had to flee for their lives and who hid, terrified, unsure if they would ever see their families again, their friends again”. Biden ordered the lowering of US flags to express grief and to mourn for their victims.

Governor Jared Polis said regarding what happened in the operation, “My heart aches today and I think all our hearts do ache”, pointing out to the pain that the survivors feel, those “who were able to get out with scars that can’t be seen, but every part of it is painful.”

The US representative Joe Neguse said “My heart is heavy, in grief and in anguish”, and he said, “There are no words to describe the pain that my community is suffering from tonight. I am heart broken and I pray for the families of those we lost.”

Praise be to Allah, the Lord of the Worlds, that the situation in America today is not far from the situation in other unstable places in the Muslim countries where there are conflicts and deaths. America is experiencing daily shootings and killings in its midst. Biden said in his public speech on the subject of gun violence, “Every day in this country, 316 people are shot. Every single day. A hundred and six of them die every day.” And there were (since the beginning of the year) more than 850 additional shootings that took the lives of more than 250 people and left 500 injured. This is an epidemic”. He also said, “Every month there are 53 women who are shot by their partner.” These are the women’s rights under democracy. He also said, “Our flag is always lowered due to gun violence,” and he also said pointing out the financial losses faced by America as a result of gun violence that it “cost the nation \$280 billion a year in hospital bills, physical therapy, trauma counseling, legal fees, prison costs, and the loss of productivity. Not to mention the psychological damage done to those watching this happen”. and during the past year alone, 43,549 people have been killed, according to the GVA website. It has been reported by ‘Accuracy in Media’ that the number of those killed in Chicago alone from the beginning of the year till March has been 123 murdered. Just as Allah Almighty has afflicted them with Corona He has also afflicted them with these conflicts amongst them.

Sheikh Abu Qatada al-Filistini, may Allah preserve him, said (in his ‘Collection of tweets”, p. 242) said: “One of the graces of Allah upon the believers is that they have the book of Allah among them which exposes the mind and the state of His enemies. Be certain that “they are indeed suffering in pain” (Quran:4:104). And let them not deceive you with their outer looks or their good impression, since beneath the ashes they are shouting in pain.”

Fifth: This operation has increased anxiety and fear among the Americans. Obama said in a statement, commenting on the Colorado incident, “In a normal life, we should be able to buy groceries without fear.

We should be able to go to school, or go out with our friends, or worship together without mentally planning our escape if someone shows up with a gun. We should be able to live our lives without wondering if the next trip outside our home could be our last.” He then continued saying “We should. But in America, we can’t.”

The American representative for the state of Colorado Joe Neguse said on the following Tuesday “We should feel safe in our grocery stores. We should feel safe in our schools, our movie theaters and in our communities.”

But how can they feel safe while the Muslims are suffering in fear because of them? So for the sake of justice they must feel what the Muslims feel.

And you will see through pictures the magnitude of the security alert made to face the operation.

“From shootings in San Bernardino, Calif., to Las Vegas to car-ramming attacks in Nice, France, and Barcelona, the lone-wolf attacker has presented a particular challenge to law enforcement across the globe.”

(The Washington Times)

“Lone wolves like the Colorado shooter are more dangerous than terrorist organisations.”

Geoffrey Simon, terrorism expert at the University of California, and author of ‘Lone Wolf Terrorism’

4. Features and merits of the operation:

First: The Mujahid Ahmad Al-Issa had done well in choosing the weapon, and he chose a firearm and ordered and obtained it without draw-choosing the type of firearm, and that is distinguished by its fiery den-of hitting the target, easy to use and lars.

Second: The Mujahid Ahmad Al-Issa has done well in choosing the place, and he chose a place where people gather, which can bring about the largest number of deaths, and he also chose the time well, and he chose the time in which people gather to take the Corona vaccination and their crowding for shopping at the store.

Third: The Mujahid Ahmad Al-Issa chose the target well during the execution process, so he aimed his shots at white-skinned Anglo-Saxons of European ethnicity, who are considered the decision-makers in the United States of America, and he did not target those of African, Asian, Indian or Latin origins.

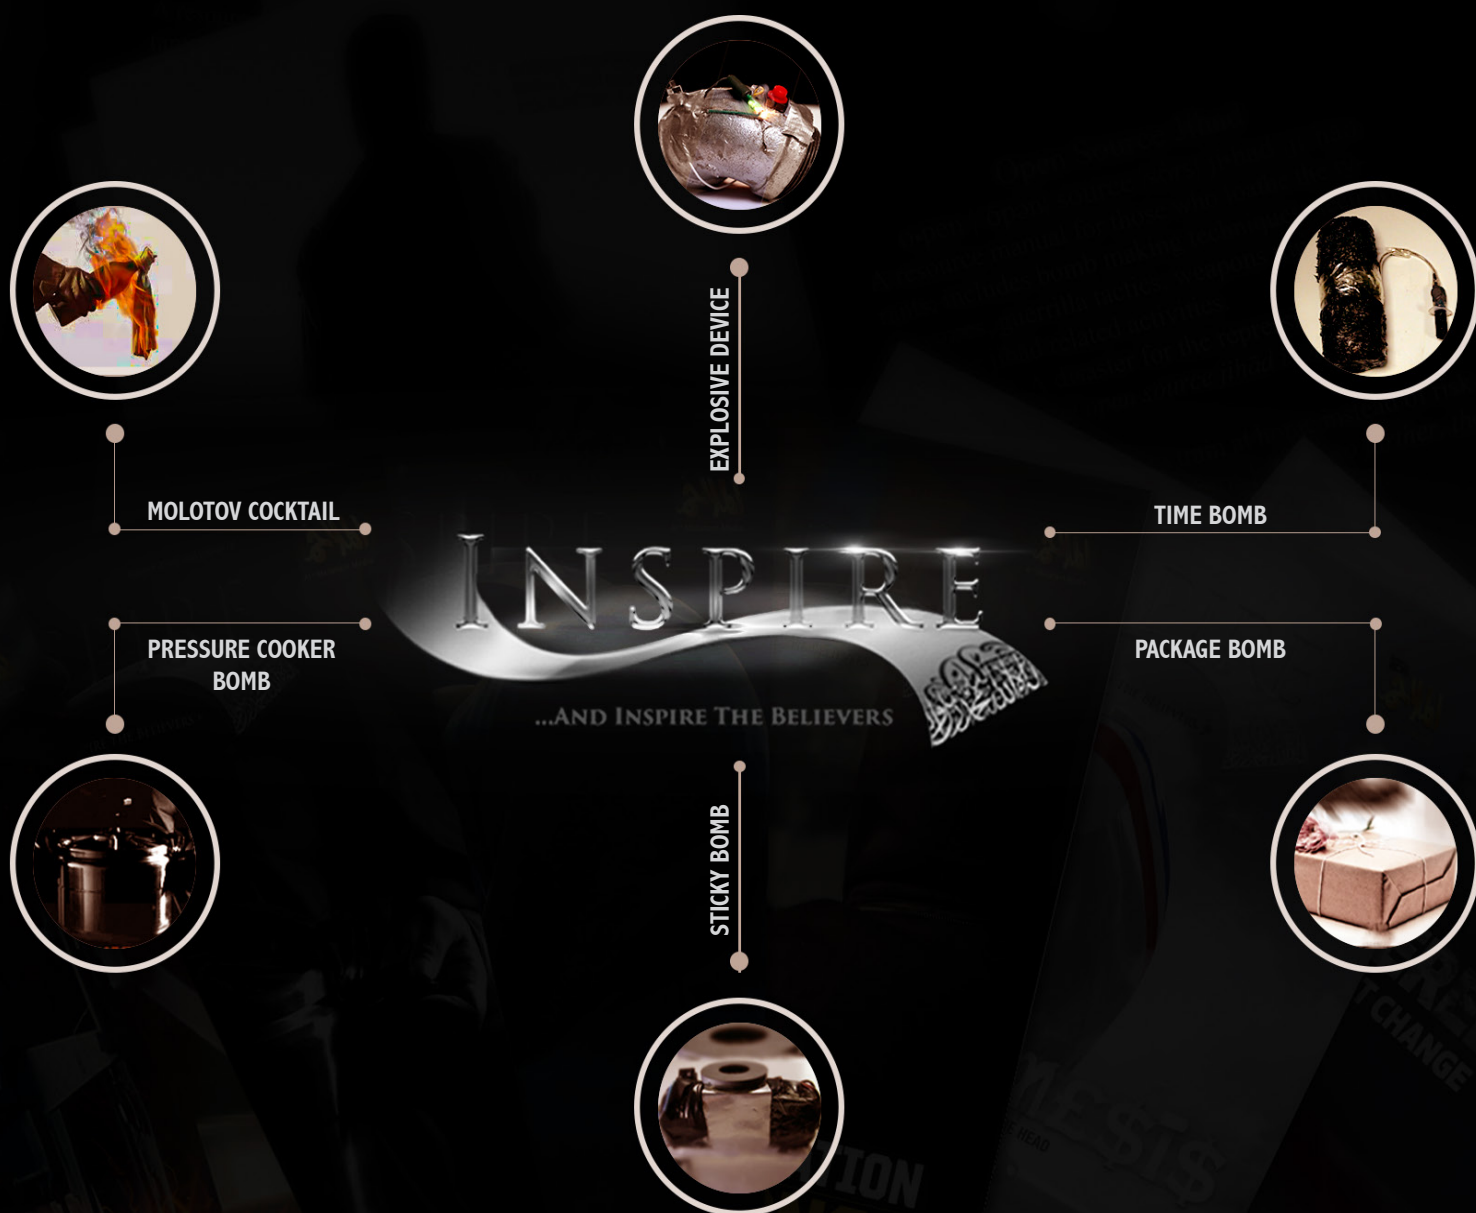

Fourth: The Mujahid Ahmad Al-Issa did well in the element of surprise in the operation and took security precautions, as he did not make eyes turn towards him by drawing suspicion regarding his intent to carry out an operation and its like.

5. Guidelines from Inspire:

First: Always try to choose a place where it is difficult for those who are gathered there to find a safe haven or to hide or to escape until they are killed in the largest possible number.

Second: When you work for any operation, always have in your mind the determination to clash until the end with the police and with the enemy and to not surrender to them until death, and for that, take your precautions in terms of ammunition.

Third: Try to make your operation look destructive or explosive, either by making explosive devices and bombs whose details are mentioned in the previous issues of the Inspire magazine, or by making Molotov cocktails and taking them with you to burn the place with them, or by taking matches, a lighter and an inflammable material at the very least to burn the place, as this greatly intensifies and multiplies the impact of the operation on the enemy, whether from an economic, psychological or media point of view.

Fourth Take advantage of the presence of weapons and their spread in America to be able to possess them and to carry out Jihadi operation using them. The possibility to place restrictions on the possession of weapons in America or to reduce their spread is extremely far and difficult. And all that you need is to search the internet and in arms shops for what is legally required of you to possess a weapon and how to buy it. And let the weapon be a machine gun,

and if you find an obstacle for this, all you must do is look for ways to obtain stealth weapons by purchasing ready-made weapon parts and then assembling and installing them manually by yourself, and this method has two advantages:

The first advantage: The control over it is less and the ways to obtain it are easier.

The second advantage: The weapon will be without a serial number.

And if you find any obstacle in this, try to buy weapons through the black market, as well as through offers in free sales and advertisements on the internet and elsewhere, because this market is beyond the reach of the regime.

What needs to be understood is that weapons are very widely spread in America and there are more than 390 million weapons. There is nothing easier in America than obtaining weapons, and therefore do not begin carrying out operations involving stabbing with knives and running over with cars until you search for these weapons and use them in your operation.

Fifth: Always give out a media message for the operation. This is very important, as it multiplies the results. At the beginning of the emergence of Jihadi operations in the countries of the West and the Americans, whenever they would smell the scent of Jihad and the spirit of Islam in every Jihadi operation, they would immediately declare and say that this operation was a terrorist operation. And with the passage of time the Americans and the Crusader West discovered that this made the Jihadi actions grow and increase in their countries, and one operation would incite another operation, and one hero would incite another hero, and one who was hesitant would get determined, and one who was fearful would get emboldened, and a sad one would rejoice, and thus it became clear to them that the disadvantages of announcing an operation calling it a Jihadi or terrorist operation are more than its advantages. So that led to a change in the US and Western strategy in dealing with any individual Jihadi action in their countries towards not declaring the act as a terrorist act and concealing the real motives despite them knowing it, and towards creating other motives to cover up the operation such as psychological illness or being discontent with the status they are in, or making the motives behind the operation to be unknown or saying that they are subject to investigations by concealing the religion of the one who carried out the operation and immediately shutting down his social media accounts. All of this in order not to incite another operation or set up a new one. And from this standpoint and with a keenness to have a counter strategy against this wicked Western strategy that aims to obliterate the Jihadi acts and to wipe out the desired message from them, we will talk about the importance of the presence of media in the Jihadi operations and its means.

The presence of media in an operation multiplies its impact many times over, and thus the reward from Allah Almighty gets multiplied many times over. An operation accompanied by the media will have several matters added to it that would make it great, such as delivering to all our intended message behind the operation, which is revenge and retaliation for our brothers in Palestine, and this is the most important of them. And besides that, it brings terror to the hearts of the infidels, and enrages them, and heals the breasts of the Muslims all over the world and they rejoice at the operation, and by your work others get incited towards taking action, and thereby you incite your brothers and embolden them to go forward. And how many operations have occurred in the West and the cause of it was an operation that preceded it..! It has been mentioned in the Hadith of the Prophet, may peace and blessings of Allah be upon him, that he said: "Whoever starts a good thing in Islam will have its reward and also the reward of those who

followed him, without it reducing in the least from their reward.” - Narrated by Muslim. Thus, you will have the reward for all the operations that take place because of your incitement. The most important thing is to convey the Muslims’ message behind this operation which is to repel the enemies’ attacks and to stop their oppression of the Islamic nation and their interference in their affairs and to stop their support for the Jews. When the message behind the operation is repeatedly sent to the enemy, whether by the heroes of lone Jihad or by Jihadist groups, these messages become entrenched in them and they force them to respond to these demands, and thus the Islamic nation reaches its goal.

In this regard, it is necessary to learn how the lone Mujahid can convey his message in any operation so that he does not give the enemies an opportunity to kill it, and that is through several means:

- *Filming the operation with a head camera and broadcasting it live directly via Facebook or YouTube, and this is the best method. So our enemies who killed the Muslims in New Zealand in this way would not be ahead of us.*

- *Contacting one of the media outlets from the same country during the operation and informing them of the operation and its goal, so that they cannot conceal it (media contact numbers must be obtained in advance), as the Kouachi brothers did in France.*

- *In case it is not possible to contact the media, contact more than one police station and inform them of the message.*

- *Open an account on Twitter and Facebook and register it with your real name and tweet your message during the operation, after leaving the message ready.*

- *The message that you mention in this communication and tweet should be that “I did this work in response to the calls of the Muslims in Palestine and elsewhere and to take revenge from America and the West for their crimes against our Prophet Muhammad, may peace and blessings of Allah be upon him, and for the crimes against our Holy book and the Muslims, and you will not dream of security until you leave the Muslims and their affairs alone and you leave supporting the Jews. And I incite my Muslim brothers to carry out attacks against America and the West.”*

- *You can put a video recording of yourself in which you mention your will and your message and upload it to the internet at the time of carrying out the operation, which is better than just writing the letter.*

- *You can also make someone else film the operation directly and straightaway send your message through the media, as did the Muslim Adebolajo in Britain when he made the media film him while he was giving out his message. But this is difficult to find while carrying out the attack, and if it is available then it is better.*

- *Shouting out a lot of Takbeer at the time of carrying out the operation in a loud voice that everyone can hear, because this has been one of the reasons for the enemy’s inability to conceal some operations, or mentioning the injustice of the Americans and the Crusader West against the Muslims and their interference in their affairs and their support for the Jews, and condemning them in a voice that those present there can hear.*

The important thing is that you do not kill the message of the operation, because this is not yours, but it is the right of the Muslims, and the enemy will exploit this to portray you to the world as a madman, a psychopath and a person with worldly ambitions, and they will say that what caused you to carry out that operation are just your psychological disorders and mental illness, or your concern for the world and its crumbs, in order for them to cover up the lofty motives and the noble Islamic cause that you believe in. And the reason for that would be your lack of eagerness to send your message along with the operation. So be careful about this matter and give it the same amount of attention that you give to the military and security preparation for the Jihadi action.

To conclude:

We call upon the Muslims in America and the West, and we say that you have the opportunity to wage Jihad, as the enemy is in front of you and the weapon is within your reach and the Ummah is calling you, and there is nothing you need other than sincere determination and a will that removes all hesitation, and thus the final result will be winning the pleasure of Allah the Almighty and gaining paradise. It has been reported by Nuaym bin Hamaar that a man asked the Prophet, may peace and blessings of Allah be upon him, "Which martyrs are the best?" He replied: "Those who when they throw themselves into the battle rows do not turn their faces away from the enemy until they are killed. They are the ones who rejoice in the highest chambers of Paradise, and your Lord will laugh at them, and if your Lord laughs towards a slave in this world there is no account for him." Narrated by Ahmad (22476)

On the authority of Abu Barzah, may Allah be pleased with him, the Prophet, may peace and blessings of Allah be upon him, was on an expedition and Allah granted him the spoils of war after victory. The Prophet then asked his companions, "Have you lost anyone?" They replied giving the names of close friends who were killed. He put the same question to other companions and they also named the ones they had lost in the battle. He asked the same question again and they replied saying they had lost no close relative whereupon the Prophet said, "But I have lost Julaybib. Search for him in the battlefield." They searched and found him lying beside seven polytheists whom he had killed before getting killed. The Prophet came to the spot where Julaybib lay and stood over him and said "He killed seven of them and then got killed. He is from me and I am from him." The Prophet then took him in his arms and he was the only one holding him and carrying him". Narrated by Muslim (2472).
